FOUNDATION SUBJECTS

ART

This term we will be covering the basic skills you need to create great Art. We call them the 'formal elements'.

You will learn how to use line, shading, mark-making and mix colour in different ways to create different effects. You will also learn about composition, perspective and proportion.

Today you will learn about TONE and shading.

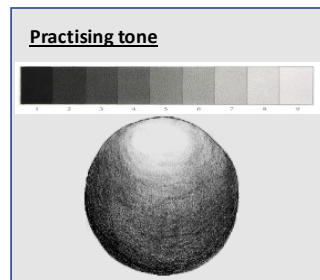

In Art tone is how light or dark something is very, very dark to total white and everything in between. You can use tone and shading to make something look 3D.

In an A5 piece of paper write the title:

"Practicing Tone", underneath write this:

L.O. To understand how to create a variety of tone and draw 3D shapes using directional shading.

Then draw a tonal scale from black to white and then do your best at shading a circle as a 3D sphere using all the tones from black to white.

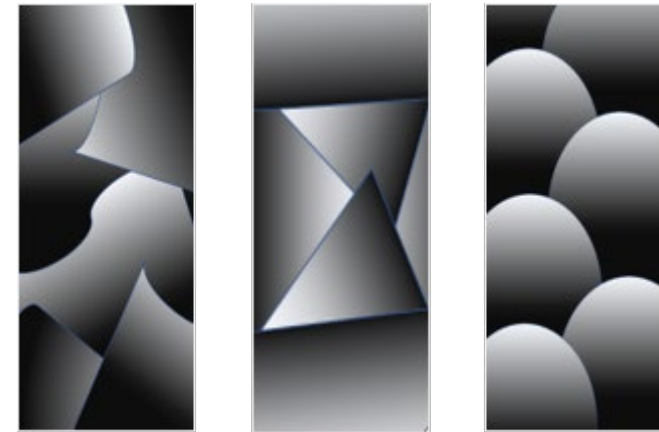

Consider the following:

- Draw it as big as you can within the A4 page.
- Add your name, surname and class code to your artistic practice.
- Keep the drawing safe and bring it to school on your return.

Notes: If you are UNSURE at any point, please contact Mrs Palomino with any questions and further guidance.

If you finish the work in less than 1hr and 15 mins measure a rectangular shape 6cms by 15cms and create your own design just with tone. these are some example ideas.
