

## Options Evening – February 2026

Dear Parent/Carer

### Year 9 Options Evening

**Wednesday 25<sup>th</sup> February 2026 (17:00 – 19:00)**

I am delighted to invite you to our annual **Year 9 Options Evening** which will be held **on February 25<sup>th</sup> from 17:00**. This event provides an excellent opportunity for you and your child to learn more about the various subjects and pathways available for the next chapter of their academic journey. During the evening, you will have the chance to:

- Find out what options students have with regards to subjects and pathways.
- Meet with subject teachers and department leads.
- Explore the content and structure of different courses.
- Understand the assessment methods and expectations for each subject.
- Receive guidance on making informed decisions that align with your child's strengths and future aspirations.
- Ask any questions you may have about the options process.

On the evening, you are invited to visit subject areas and engage with departments to gain further insights into each course. To provide flexibility and allow you maximum time exploring subjects, you will be sent a **virtual presentation 48 hours before the event** which will outline the options process and deadlines. If you are unable to access this virtual presentation, there will be an opportunity to view it live on the day. Both virtual and live presentations will provide the same information.

Our aim at The Regis School is to fully support you and your child throughout this process by providing comprehensive information, sensible guidance and a balanced professional opinion for you and your child to confidently make the most appropriate choices.

We believe that this evening will be an invaluable resource for both you and your child as you navigate these important decisions however, we recognise that you may have other commitments that do not allow you to attend the event. In this case, all information will be available through our 'Options booklet' and via our website.

Your involvement and support play a crucial role in ensuring your child's success, and we look forward to partnering with you during this pivotal time.

Best wishes

**Miss M Bedassie**  
Assistant Principal
